

In 1904, French biologist René Quinton published a book entitled "L'Eau de mer, milieu organique" (Sea Water, Organic Medium) in which he showed, for the first time, that the mineral composition of sea water collected under specific conditions is very similar to that of our blood plasma. On the basis of his research, he developed marine plasma, a product that enabled him to save thousands of lives.

Since 1990, Quinton America Inc. has been combining tradition and science to bring top quality marine solutions to the American market. Under the brandname BIOCEAN® the company is proud to offer the US, marine solutions that contain more than 90* minerals and trace elements. BIOCEAN® provides a safe and efficient way to help maintain a good health.

Look no further! Benefit now from the effects of all the nutrients in BIOCEAN® marine solutions.

BIOCEAN® marine solutions contain, among other minerals and elements:

Calcium	Selenium
Magnesium	Iodine
Potassium	Boron
Phosphorus	Silver
Zinc	Gold
Copper	Molybdenum
Fluorine	Silicium

What are the advantages of BIOCEAN® marine solutions for me?

BIOCEAN® solutions come in different formats: boxes of 30 x 10 ml ampoules, economical 1 litre bottles and nasal hygiene sprays.

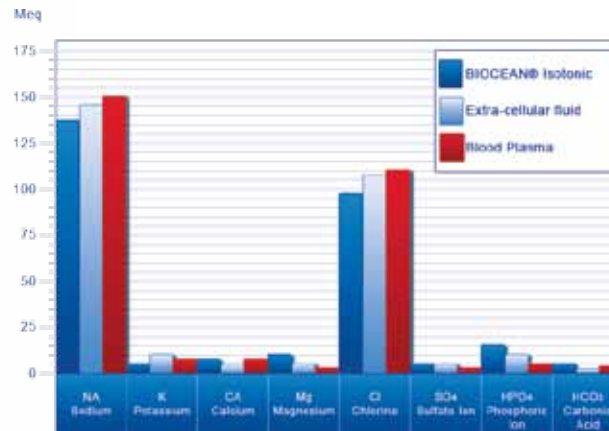

All BIOCEAN® products are made in European pharmaceutical laboratories and meet both European and American pharmacopoeial standards. Look for the quality, safety and effectiveness of the BIOCEAN® products.

The products contain more than 90* minerals and trace elements, so you no longer have to think about which individual minerals and trace elements you need to buy. With BIOCEAN® solutions, you benefit from all the minerals and trace elements that naturally occur in sea water!

The concentration of minerals and trace elements in BIOCEAN® solutions is virtually identical to that of our blood plasma: as a result, these products provide for optimal assimilation of nutrients, unlike popular formulas with massive doses that are eliminated by the body in the short term and are potentially harmful in the long term.

If you have any questions about BIOCEAN® products, please write to us at info@bioceanplasma.com or visit our web site at www.bioceanplasma.com.

Table comparing blood plasma, extra-cellular fluid and BIOCEAN® Isotonic

The minerals and trace elements in BIOCEAN® marine solutions are assimilated quickly and completely thanks to their ionic nature and concentration which is almost identical to that of our blood plasma.

*The statement that sea water contains more than 90 minerals and trace elements is based on the most recent studies on the topic.

Here's what our customers have written to us about Quinton America's marine solutions

"By taking Quinton America's Hypertonic® and Isotonic® solutions, I've managed to get my high level of energy back. I work at a clinic and you can be sure that I'll do my best to let other people know about your products."

Marika H., Québec, Canada

"I'm 47. Since my late teens, I've suffered from different sorts of severe pain. My condition degenerated significantly five years ago. I took tons of vitamins and other minerals and tried various health solutions, but nothing helped. I started taking Quinton America's Isotonic® solution; I now feel better than ever and I feel hopeful again. Thank you so much."

Alice G., Georgia, USA

"I've been taking Quinton America's Hypertonic® solution for the past four years; it's the only mineral and trace element supplement I've been taking. I haven't been sick in all that time: I haven't caught a bug or a virus. I have a lot of energy, even though I work very hard every day. I couldn't go without this product."

Lucie L., Québec, Canada

"Now that I'm taking Quinton America's marine solutions, I don't have to worry about my bones any more: my latest tests showed that they're improved considerably. I'd strongly recommend these products on the basis of my experience."

Jeanne S., Québec, Canada

Ride the wave to better health with BIOCEAN®!

Questions and Answers

What's the difference between BIOCEAN® Isotonic and BIOCEAN® Hypertonic?

They both act in the same way. They both provide the body with more than 90* minerals and trace elements. The difference is in the concentration: BIOCEAN® Hypertonic is 3.5 times more concentrated than BIOCEAN® Isotonic

Which solution should I choose: BIOCEAN® Isotonic or BIOCEAN® Hypertonic?

Your health advisor can help you decide which solution is best for you. BIOCEAN® Isotonic doesn't have any known negative effects and can be taken by anyone regardless of their condition. It's recommended especially for people over 50. BIOCEAN® Hypertonic shouldn't be taken by anyone who's on a salt-free diet or has high blood pressure, heart or kidney problems. It's recommended in particular for people 50 and under.

What do BIOCEAN® marine solutions contain and how do they act?

BIOCEAN® solutions are made from sea water. They are 100% natural and do not contain any preservatives, additives, sugar or colouring. They provide the body with more than 90* minerals and trace elements which are naturally found in sea water. Given the ionic nature of these minerals and their concentration, which is almost identical to that of our blood plasma, BIOCEAN® solutions can be assimilated quickly and completely; they help eliminate toxins and revitalize our body's cells

How do you take BIOCEAN® marine solutions?

Quinton America's solutions should be taken on an empty stomach, 20 minutes or more before meals. BIOCEAN® Isotonic can be taken any time of day, but it is recommended that BIOCEAN® Hypertonic be taken in the morning only. A health advisor will be able to help you determine the appropriate dosage, based on your needs. Generally speaking, the normal dosage of BIOCEAN® Isotonic is 20 to 50 ml a day, while that of BIOCEAN® Hypertonic is 10 to 40 ml a day. We suggest that people who are hypersensitive to everything they ingest take only BIOCEAN® Isotonic and begin with 5 to 20 ml a day.

Where can I buy BIOCEAN® solutions?

BIOCEAN® solutions are sold by practitioners, health professionals and natural product stores. Feel free to write to us at info@bioceanplasma.com or to visit our web site at www.bioceanplasma.com to find the retailer nearest you.
